(- 2023)

ABSTRACT

The objective of the project is to develop a system that automates the processes and activities of a travel and. The purpose is to design a system using which one can perform all operations related to traveling.

EXISTING SYSTEM:
In the present system a customer has to approach various agencies to find details of places and to book tickets. This often requires a lot of time and effort. A customer may not get the desired information from these offices and often the customer may be misguided. It is tedious for a customer to plan a particular journey and have it executed properly.

PROPOSED SYSTEM:
The proposed system is a web based application and maintains a centralized repository of all related information. The system allows one to easily access the relevant information and make necessary travel arrangements. Users can decide about places they want to visit and make bookings online for travel and accommodation.

INTRODUCTION

Tour & Travel is an irresistible word when it comes to tour and travel packages. We offer tour and travel services including ticket bookings, hotel reservations, rental car services, holiday tour packages, domestic tour packages. We provide the most suitably designed as well as the customized travel packages to the customers. We offer everything related to travelling services under one roof.

Today's extremely

exhausting work environment dictates that individuals requires some joyful holiday. We provide stress-free joyful refreshing holidays with cost competitive and customized packages according to their requirements. We provide services in almost each and every city of India. We want to serve our customers with best possible service and provide them the kind of comfort they want.

Modules

- Visitors
- Registered users
- Administrator

The visitor module include:

View About Us: This module help the visitor to see the latest About Our Website.

Services: Insurance and Feedback.customer give the feedback About our services.

Hotels View: Customer View About Our Hotels.

Destination View: View About Our Destination.

Searching: Customer Search Hotel,Flight,Tour Package,Hotel+Flight,Car and Bus

Registered user module includes:

Book Hotel.

Book Flight.

Book Tour.

Book Car And Bus.

Book Flight+Hotel.

View About Us: This module help the visitor to see the latest About Our Website.

Services: Insurance and Feedback.customer give the feedback About our services.

Hotels View: Customer View About Our Hotels.

Destination View: View About Our Destination.

Searching: Customer Search Hotel,Flight,Tour Package,Hotel+Flight,Car and Bus

Language Translater: Customer change the Language According To Our understanding

Customer Check Our Status.

Currency Conversion

The administrator module includes:

Add Hotel : Admimistrator Add Different Type Hotel .
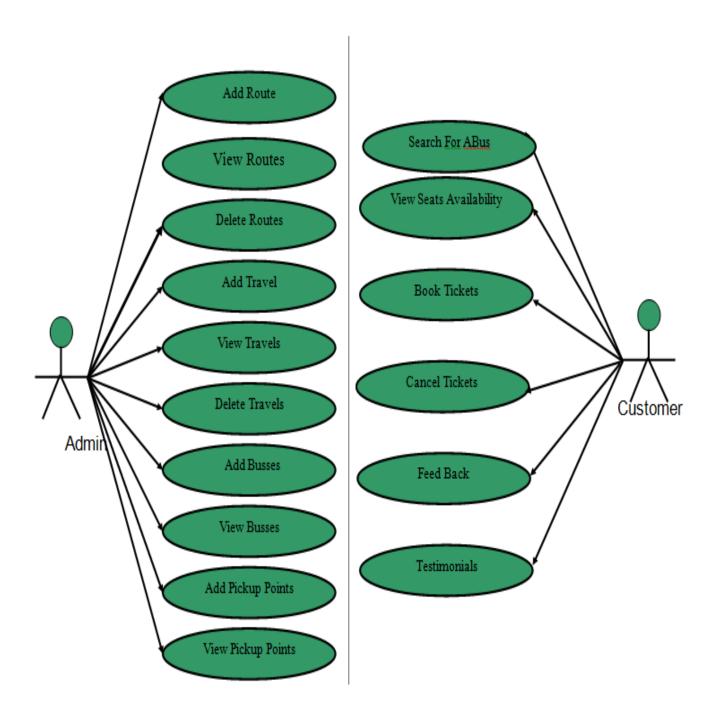

Add Flight : Admimistrator Add Flight

Add Tour Package : Admimistrator Add Different Type Tour Package.

Add Bus,Car.

Administrator Update User BooKing Status about All .Hotel,Car,Bus Flight,Tour .

View All Record About Booking Of .Hotel,Car,Bus Flight,Tour .

DATA FLOW DIAGRAM

OBJECTIVE OF PROJECT

The project carried out under the title "TOUR & TRAVEL MANEGMENT SYSTEM" is a sincere efforts towards increasing the speed and enhancing the Performance a managing an Private Work. This has been tried to achieve thought making the whole system computerized along with the basic tasks of Private work and automation of all storage network. Certain additional feature like making new user to use this software, better User interaction etc.

This Application is build in NETBEANS and database is in ORACLE . NETBEANS is used as Front end and ORACLE as a backend of this software. You can manage all your information from a single database file. Within the file, divide your data in to separate storage containers called tables, view, add and update table data using online forms, find and retrieve just and data you want using queries and analyze or print data in a specific Layout using reports.

SCOPE OF PROJECT

The Website is developed based on real life. It is very helpful in business applications. Today's extremely exhausting work environment dictates that individuals requires some joyful holiday. The website will provides a stress-free joyful refreshing holidays with cost competitive and customized packages according to their requirements. As it is web based it can provide services in almost each and every city of India. It offer tour and travel services including ticket bookings, hotel reservations, rental car services, holiday tour packages, domestic tour packages only in one click. It provide the most suitably designed as well as the customized travel packages to the customers. A traveler can find everything related to travelling services under one roof by this website. The site will help to estimate the benefits and calculate the requirement very easily. The benefits will be in terms of speedy query. Smooth and faster operations at all levels improve the working atmosphere of the entire organization. Maintaining the database as required. Database can be modified accordingly.
